The Regional Director

Department of Information and Communications Technology (DICT) – MIMAROPA

Sta. Isabel, Calapan City, Oriental Mindoro

Subject: Application for On-the-Job Training (500 Hours)

Dear Sir/Madam:

I am writing to express my enthusiastic interest in completing my 500-hour On-the-Job Training (OJT) program at the Department of Information and Communications Technology (DICT) MIMAROPA. I am currently a fourth-year Bachelor of Science in Information Technology student at Pinamalayan Maritime Foundation and Technological College Inc. (PMFTCI). Having previously attended DICT technology and cybersecurity seminars hosted right here in Oriental Mindoro, I have a deep appreciation for the agency's vital mission in driving digital transformation, cybersecurity resilience, and ICT development across our region.

Throughout my academic journey, I have built a strong technical foundation in web and application development, programming languages including PHP, JavaScript, React, React-Native, Laravel, MySQL and Java, as well as foundational cybersecurity practices. Additionally, my hands-on exposure to technical tasks, collaborative digital workflows, and practical problem-solving has equipped me with the adaptability needed to thrive in a fast-paced government IT environment. I am eager to apply the knowledge and skills I have acquired in the classroom to support DICT MIMAROPA's technical operations, administrative initiatives, or community-focused ICT programs.

An internship with your esteemed agency represents an invaluable opportunity for me to gain real-world industry experience under the mentorship of public sector IT professionals. I am fully committed to dedicating my 500 hours to producing quality work, learning rapidly, and contributing positively to your team's ongoing projects. Enclosed is my resume for your review, which further outlines my academic background, technical skills, and training credentials.

Thank you very much for your time, consideration, and dedication to nurturing the next generation of IT professionals. I look forward to the possibility of discussing how my skills and enthusiasm align with the goals of DICT MIMAROPA.

Sincerely,

JOHN LEE F. MOGOL
